Prehistory

Little is known about the history of Chickensas City prior to its settlement by Chickens. Although mythological accounts suggest that the city was once inhabited by snakes prior to their banishment, during which time the city was known as Snakensas City, there is little concrete evidence to suggest that this was actually the case.

Settlement by Chickens

Chickensas City was first settled by chickens for trading purposes, holding a valuable position at the confluence of the Chickensas and Missourooster rivers. Beginning roughly 150 years ago, the city began experiencing

massive growth as a result of industrialization, with many rail and streetcar networks being built. Unfortunately, these networks do not exist today, leading more chickens to a sedentary lifestyle; this is possibly related to Fox and Chicken Mafia efforts to make chicken civilians fatter to produce more nuggets.

Chicken Mafia

Chickensas City has long been known as a hub for the Chicken Mafia, with the Cishella crime family having operated within the city for over a century. This, as one might imagine, has been of great negative consequence for the chickens inhabiting the city; many unsolved disappearances have occurred since the

inception of the Cishella family business, with those lost often being presumed to have been sold to the Fox Mafia as Chicken Nuggets. Arrests have been carried out throughout the family's history with many beloved storefronts throughout the decades being revealed as money laundering operations covering for the Chicken Mafia's true business of dealing chickpeas, which have long blighted the chickens of the city. Though one might attribute the Chickensas City Police's constant distrust of outsiders to the overwhelming presence of the Chicken Mafia, this belies the fact that the CCPD are honestly just assholes.

Arts and Culture

Chickensas City is internationally renowned for its seed barbecue; chickens from surrounding areas regularly flock to the area to taste it.

Chickensas City is also well-known for its music scene, notably for jazz. Musicians originating from the city include Janelle Monegg and Charlie Pecker.
